

End-to-end test report

Tresor Couture · 24 tests · 24/24 passed

Environment	Firestore Emulator Suite (Auth + Firestore) loading the production <code>firestore.rules</code> , with the app built in emulator mode and served locally.
Scope	Every admin console section, the customer journey, and the real-time customer ↔ admin interactions between them.
Generated	2026-08-13T08:06:44.795Z

HOW TO RE-RUN EVERYTHING

1. `npm run emulators`
2. `npm run seed:emulator:full` (with the emulator host env vars — see README)
3. Build with `VITE_USE_EMULATORS=1` , then `npm run preview -- --port 4173`
4. `npm run test:emulator`
5. `npm run report:pdf` to regenerate these PDFs
