

Admin · Support inbox

Tresor Couture · automated end-to-end test report

Area	Admin console
Test id	admin-08-support
Result	PASSED
Duration	16.2s
Executed	2026-08-14T09:07:58.844Z
Environment	Firebase Emulator Suite (Auth + Firestore) loading the production firestore.rules

WHAT THIS VERIFIES

The support inbox renders the per-order conversation list with its search.

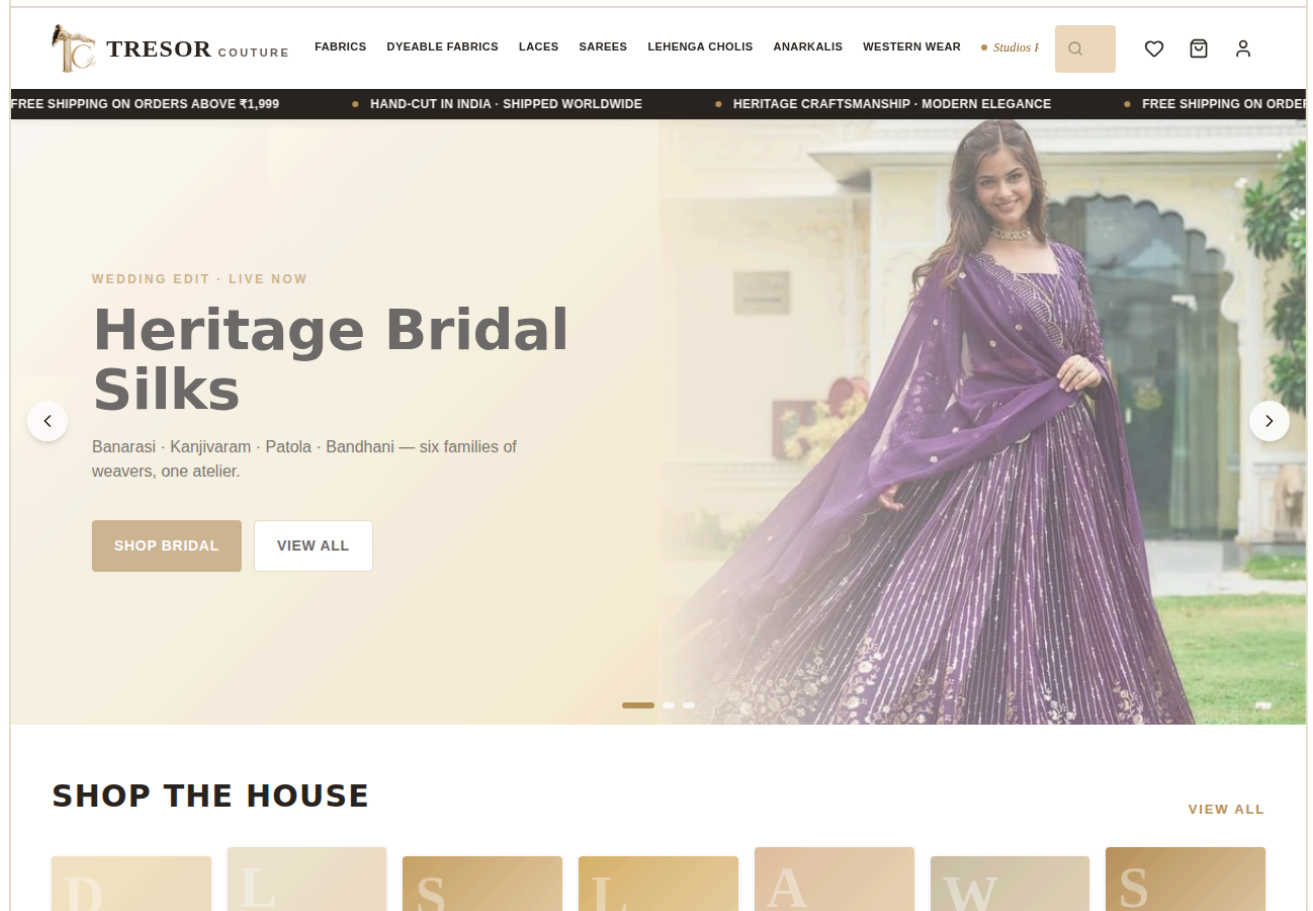

REPRODUCE MANUALLY

1. Start the Firebase emulators and seed the full dataset (see README → Tests).
2. Build with `VITE_USE_EMULATORS=1` and serve on `http://127.0.0.1:4173`.
3. Sign in as `admin@test.local` / `Test1234!` (this account carries the admin custom claim).
4. Navigate to `#/admin/support`.
5. Confirm the section heading and its primary controls render against seeded data.

STEPS (3)

1 Signed in as the atelier admin

The admin custom claim gates both the UI and the Firestore rules.

Landmark heading matches /^support\$/i.

Support

Search conversations...

No conversations yet.

Select a conversation to reply.

3 ✓ Primary control present: "Search conversations..."

Proves the section is interactive, not just painted.
